

Tax Fact #7

THE GOVERNOR'S BUDGET CALLS FOR NO SHARED SACRIFICE, PROTECTS THE WEALTHY AND DESTROYS JOBS (And makes Connecticut a much less attractive place to live)*

* The Governor's budget hurts working families in Connecticut. The budget will impose financial burdens on working and middle class taxpayers.

Who will move to Connecticut or establish a new business if:

1. Parks and recreation areas are closed?
2. Public transportation costs go up?
3. Huge cuts to job training programs are imposed?
4. Huge cuts to education are imposed?
5. Suspension of support for the arts and culture is implemented?
6. Investments in attracting small businesses and developing technology are slashed?
7. Cuts to libraries take place?

Job growth depends on investments. Job growth depends on decent services. Job growth depends on infrastructure, education and training.

**A Progressive Income Tax and a Fair Corporate Tax Structure
would prevent the Governor's nightmare!**
